

Email

On 18 September 2012, OSM sent an email to 20 additional individuals who provided an email address but did not provide a postal mailing address. The email included an attachment PDF of the postcard notification.

6 Media Coverage

The following news articles discussed the Four Corners Power Plant and Navajo Mine Energy Project EIS and/or the open house scoping meetings.

Summary

There were 40 articles published in local, regional, and national newspapers between 8 July 2012 and 17 September 2012. These articles, or announcements, publicized the open house scoping meetings, comment channels, and scoping comment period extension. Some articles were published in a blog or Op-Ed piece to encourage support or opposition to the project. Several articles were picked up by a variety of other newspapers and websites. Full articles are provided in Exhibit T.
