

# FOUR CORNERS POWER PLANT AND NAVAJO MINE ENERGY PROJECT EIS

## THREATENED, ENDANGERED AND SENSITIVE SPECIES

### THREATENED, ENDANGERED AND SENSITIVE SPECIES

In accordance with Section 7 of the Endangered Species Act, OSM is consulting with the U.S. Fish and Wildlife Service to determine potential environmental impacts to threatened and endangered species and their critical habitat as a result of the proposed actions.

OSM will also evaluate impacts to species protected under the Bald and Golden Eagle Act and Migratory Bird Treaty Act.

In addition, OSM requires wildlife and raptor monitoring in compliance with permitting for the Surface Mining Control and Reclamation Act. This includes species listed by the Navajo and Hopi tribes, as well as those listed by the U.S. Fish and Wildlife Service.

**The Navajo Nation, Hopi Tribe, and U.S. Fish and Wildlife Service would issue respective biological opinions for listed species.**

A sample of threatened, endangered and sensitive species in the area:
