

Availability of an Environmental Assessment for Public Review and Comment Centralia Mine Significant Permit Revision

The U.S. Department of the Interior, Office of Surface Mining Reclamation and Enforcement (OSMRE), Western Region Office, has prepared an Environmental Assessment (EA) for TransAlta Centralia Mining LLC's (TCM's) Centralia Coal Mine significant permit revision for OSMRE Permit No. WA-0001E.

The OSMRE is responsible for reviewing plans to conduct coal mining and reclamation operations on lands containing leased Federal coal. OSMRE is announcing that the EA is available online and is requesting public comments on the document.

TCM is proposing the following significant revision of the existing surface coal mining permit and Permit Application Package (PAP): The proposed significant permit revision would change the land-use designation of approximately 130 acres from forestry to permanent impoundment (a lake). The Centralia Mine is located within Sections 31-35, Township 15 North, Range 1 West, W.M., Lewis County, Washington.

If no action is taken, TCM would continue to conduct reclamation activities per their current permit.

Interested persons may view the EA on the OSMRE website at: <https://www.wrcc.osmre.gov/initiatives/centraliaMine.shtm>.

This notice initiates the public comment process on the EA and unsigned FONSI. To ensure consideration of your comments, we must receive your electronic or written comments **June 15, 2020**. Comments may be submitted in writing or by e-mail. At the top of your letter or in the subject line of your e-mail message, please indicate that the comments are "Centralia Mine EA Comments."

- E-mail comments should be sent to: gpinkham@osmre.gov
- Comments delivered by U.S. Postal Service Express Mail or by courier service must be delivered by **June 15, 2020** and should be sent to:
