

Availability of an Environmental Assessment for Public Review and Comment Freedom Mine, West Mine Area Mining Plan Modification

In accordance with the Council on Environmental Quality regulations and the Department of the Interior procedures for implementing the National Environmental Policy Act of 1969 42 U.S.C. 43332(2) (C), the Office of Surface Mining Reclamation and Enforcement (OSMRE), Western Region has prepared an Environmental Assessment (EA) to evaluate the environmental effects of the proposed mining plan modification for the West Mine Area at the Freedom Mine. OSMRE is responsible for reviewing plans to conduct coal mining and reclamation operations on lands containing leased Federal coal. Pursuant to 30 CFR 746, OSMRE must prepare and submit to the Assistant Secretary for Land and Minerals Management (ASLM) a decision document recommending approval, conditional approval or disapproval of the proposed mining plan modification. ASLM approval of the mining plan modification would authorize mining activities on 960 acres of Federal coal lease NDM 91535 within the existing, state approved mine permit boundary. The Freedom Mine is located approximately 10 miles north of Beulah, in Mercer County, North Dakota.

OSMRE invites the public to comment on the EA and has also made the unsigned Finding of No Significant Impacts (FONSI) available for public review. The EA and unsigned FONSI will be available for review as of February 18, 2016. All comments must be received or post marked by March 19, 2016 for consideration.

The EA and unsigned FONSI can be reviewed online at the following OSMRE and BLM websites:

<http://www.wrcc.osmre.gov/initiatives/freedommine.shtm>

A printed copy of the EA and unsigned FONSI will also be available for review at the following locations:

Office of Surface Mining Reclamation and Enforcement, Western Region
1999 Broadway, Suite 3320
Denver, CO 80202
Between the hours of 8:00 AM to 4:00 PM Monday through Friday
