**RE: Significant Permit Revision - Federal Permit No. WA-0007E  
John Henry No. 1 Mine  
OSMRE Project No. WA-0007D.2222**

Dear Mr. Morris:

The Office of Surface Mining Reclamation & Enforcement (OSMRE) has completed its review of Pacific Coast Coal Company's (PCCC) submittal dated April 18, 2011 for a proposed significant revision to the John Henry No. 1 Mine Permit Application Package (PAP). We have processed this submittal as a Significant Permit Revision application under the regulations at 30 § CFR 750.12 and 30 § CFR 774.13.

I find that the proposed permit revision application complies with the requirements of the Surface Mining Control and Reclamation Act of 1977 and implementing Federal regulations. In accordance with 30 CFR 947.774(b)(1) and 774.13(c), I approve this significant revision to Federal Permit WA-0007E.

Enclosed is a copy of OSMRE's findings document prepared for the approval of the application together with revised Federal Permit WA-0007E. This Permit authorizes mining and reclamation operations in accordance with the approved significant permit revision within the designated permit area subject to conditions as specified therein.

As set forth at 30 CFR 947.774(c) and 30 CFR § 774.15, any persons having an interest which is or may be adversely affected by this decision has the right to administrative and judicial review.
